

SYN-BIO JOURNAL CLUB FALL 2019

**Every Second Wednesday*, 4:15 pm
in Room 209**

Join your lab mates, Dr. Zadegan, Dr. Dellinger, as well as JSNN colleagues for the “Syn-Bio Journal Club” series. This Journal Club will focus on topics related to synthetic biology, immunology, biomedical engineering, biotechnology, and any other “out of the box” or new bio-nano related topics. Students will take turns selecting a journal article and presenting the topic for ~10 minutes after which we will discuss research design and critique the data and figures. This will be a fun and casual meeting intended to spark discussion and debate on relevant scientific topics. Contact Drs. Dellinger or Zadegan for more information or to join!

**TEA/COFFEE AND TREATS WILL
BE SERVED!**

**October 23th –
Mona**

**November 6th –
Elnaz**

**November 13th -
Samuel**

**December 4th – Break
for exams!**

**December 18th -
Jorge**
